ABOUT THE JOURNAL:

The journal [Cuadernos de Pensamiento](#), published annually, is the journal of the “Ángel González Álvarez” Seminario de Pensamiento of the [Spanish University Foundation](#). Its objective is the investigation and dissemination of philosophical, legal, political and pedagogical thought, from a multidisciplinary perspective. Only original articles are published. Our journal counts—with the solidity and professionalism of more than thirty years in the edition of academic texts (since 1987). It guarantees a rigorous peer review, short deadlines for publication, professional edition and wide dissemination and impact through an **open access system**. Well-known authors such as Julián Marías, Alfonso López Quintás, Joseph Seifert, Alejandro Llano, María Antonia Bel Bravo, Rafael Alvira, Ignacio Sánchez Cámara, among others, have published in this journal.

Since 2018, it has also been published in an electronic version, and we have begun the process for it to be in the most important databases. It has been evaluated and included in [DOAJ](#) (Directory of Open Access Journals), [Redalyc](#), [Catálogo 2.0 Latindex](#), [ERIHPlus](#) and [REDIB](#) (Ibero-American Network of Innovation and Scientific Knowledge). It is indexed in [Miar](#) (University of Barcelona), in Carhus Plus (Next catalog), in [Dialnet](#) (University of La Rioja). It has been included in the ESBCO specialized database of [The Philosopher's Index with Full Text](#); and appears in the [C.I.R.C.](#) classification as **group B** Human Sciences. It also has a presence in most university libraries and national research centers through the [REBIUN](#) Library network.
